Guru Nanak Dev Engineering College, Ludhiana
Department of Information Technology

Weekly Progress Report
Six Month Industrial Training (TR-104)
Session - Aug-Dec 2023

Name of Student: Amay Avasthi

University Roll No: 2004888

Name of the Industry/Company: Sabudh Foundation

Name of the Industry Guide: Dr. Shafila

Designation of the Guide: Jr. Data Scientist

Summary of Work Done during the Training till 31st October 2023

-In machine learning classes which are now going on at advanced level where we learn about Naïve Bayes, KNN, SVM, Decision trees, DB-Scan, Hidden Markov and many more.
- In my project that is Document Analysis Using LLM, we are now studying and working upon elmo and polygamy, pca.
- Also, in project work we are going through topics as encoding-decoding, adaboost, ann.
- We also are going through open API documentation.
- Along with live sessions and project, we are provided with regular assignments and assessments which we must complete within the given timeline.
- There was a test of machine learning in which our knowledge and skills were tested.
